How to access care

Helping you get the care you need, when you need it.

As an HMO plan member, you have access to a network of providers from our Access+ HMO network who collaborate to bring you personal, efficient care. You will choose a primary care physician (PCP), the doctor who is your first point of contact and manages your care.

Your HMO plan gives you more choices and easier access to care with:

Access+ SpecialistSM – You have the option of going directly to a participating specialist in the same medical group as your PCP, without a referral for certain services. See the Specialist referrals section of your *Evidence of Coverage* for more information.

Find a doctor

Locate and learn about doctors, specialists, hospitals, pharmacies, and other healthcare providers anytime online at **blueshieldca.com/fad**.

For more information, please call the Customer Service number on your ID card or see your *Evidence of Coverage*.

3. Compare medication costs

View the current price of your medications and see if there are lower-priced options. Plus, you can find out how much you would pay if you filled your prescription at a different network pharmacy.

Visit **blueshieldca.com/pharmacy** and scroll down to *Price check your Rx*.

Although you can fill your prescription at any pharmacy, choosing one in your plan's network may save you money, time, and paperwork.

2. Submit a completed direct reimbursement claim form for review within one year of fill date. Call Customer Service for help with submitting a request for direct reimbursement.
